

USE OF TOBACCO AND NICOTINE PRODUCTS AND DELIVERY DEVICES

The board of directors recognizes that to protect students from exposure to the addictive substance of nicotine, employees and officers of the school district, and all members of the community, have an obligation as role models to refrain from use of tobacco products and delivery devices on school property at all times. Tobacco products and delivery devices includes, but are not limited to, cigarettes, cigars, snuff, smoking tobacco, smokeless tobacco, nicotine, electronic smoking/vapor devices, “vapor pens,” non-prescribed inhalers, nicotine delivery devices or chemicals that are not FDA-approved to help people quit using tobacco, devices that produce the same flavor or physical effect of nicotine substances and any other smoking equipment, device, material or innovation.

Any use of such tobacco products and delivery devices by staff, students, visitors and community members shall be prohibited on school district property. Possession by, or distribution of tobacco products to minors is prohibited. This will include all district buildings, grounds and district-owned vehicles or property controlled by the district.

The use of Federal Drug Administration (FDA) approved nicotine replacement therapy in the form of a nicotine patch, gum or lozenge is permitted. However, students must have a physician’s prescription when not available over the counter for the FDA approved nicotine replacement therapy and must follow applicable policies regarding use of medication at school.

Notices advising students, district employees and community members of this policy shall be posted in appropriate locations in all district buildings and at other district facilities as determined by the superintendent or designee and shall be included in the employee and student handbooks. Employees and students are subject to discipline for violations of this policy, and school district employees are responsible for the enforcement of the policy.
