Memorandum

To: All Staff

From: Vince Riccobene, Director of Instruction

Jon Eekhoff, SEA President

Date: November 26, 2012

Re: Instruction Framework Decision

The Teacher Leadership Evaluation Team spent much of the fall studying each instructional framework. We read a great deal of research, watched hours of videos, and even brought in guest speakers to gain further insights into each instructional model.

After this exhaustive and thorough process we recommended ***Charlotte Danielson’s Framework for Teaching*** as the instructional model for the Sequim School District. The Superintendent and Board of Directors fully supported our process and recommendation.

In terms of next steps, the Evaluation Leadership Team will continue their collaborative work, but now our efforts will be focused on guiding our District through Danielson’s Framework for Teaching.

January 28th is scheduled as a District TRI day for certificated staff. The Teacher Evaluation Leadership Team is looking to use this day as professional development in Danielson’s Framework for Teaching.

Resources and other information regarding Danielson’s work or the new evaluation system can be found on the following sites:

<http://tpep-wa.org/>

<http://www.danielsongroup.org/>

In closing, please connect with an Evaluation Team member for any questions. We’ll be glad to help in any way.
